

Swale Mediation

As part of its dissemination work Swale Mediation and the University of Kent worked in partnership with Resilience Research and Practice (Boing Boing) and the University of Brighton to hold a conference on ways to build resilience with both children, young people, their parent/carers and with practitioners.

The conference – ‘Reflecting on Resilience: strengthening families and practitioners’ was based on the Resilient Therapy ‘Magic Box’ devised by Prof Angie Hart and Dr Derek Blincow and was held in May 2011 in Sittingbourne, Kent.
